- P.52. L13.: "Lens" should be "lens"

- P.54. L.−8: "any orbit of a completely regular G-space with G compact" should be "any orbit provided G is compact"

- P.59. L.5: Add the following: "($\tilde{f}$ may not be determined even up to the action of H.)"

- P.62. L.3: "so that" should be "that"

- P.65. L.7: "finite set of points" should be "a finite set of points"

- P.76. L.14–15: "this condition" should be "these conditions"

- P.117. L.−1: "is a diffeomorphism" should be "is a lift of a diffeomorphism"

- P.133. L.7: "a torus with one-hole" should be "one-holed tori"

- P.143. L.−8– −7: "has same geodesics structures as Euclidean metrics up to reparametrizations" should be "has the same geodesic structure as that of a Euclidean metric up to reparametrizations"
